

CAMOL NFSN

Washing - off Agent

SALIENT FEATURES

- ▶ High complexing property with protective colloid
- ▶ Low foaming in circulatory liquor machines
- ▶ Suitable in pretreatment, dyeing & washing – off baths
- ▶ Facilitates better removal of silicate in CPB dyeing of reactive dyes
- ▶ Prevents redeposition of washed out matter from washing bath
- ▶ Enables better removal of silicate & gum from prints in washing
- ▶ Enhances fastness, brightness & luster of dyed / printed substrate
- ▶ APEO / NPEO free

CHARACTERISTICS

Appearance	: Pale yellow to brown liquid
Chemical Nature	: Synergetic blend of natural dispersants, chelates, protective colloid
Ionic Nature	: Nonionic
Solubility	: Easily miscible with water in all proportions at room temperature
pH (1% aq. Sol.)	: 6 - 7
Stability	: Stable to alkalis, acids, electrolytes and reducing agents in the concentrations normally used in practice. Stable to oxidizing agents except persulphate & chlorine

APPLICATION

Substrate	: Cellulosic textiles
Machines	: All kinds of processing machines
Function	: Post coloration washing off chemical in wet processing
Guide Recipes	: Add after dilution with water or directly to the bath.

Dosage: 1.0 – 1.5 g/l in washing – off of reactive dyed / printed material

SPECIAL REMARKS

Storage Stability	: Minimum 6 months under standard conditions of storage
Container	: 50 & 200 kg Carbuoys & barrels
